

BEEHIVE

STANDARD

UKRAINE RANKS **1ST** IN EUROPE AND **3RD** IN THE WORLD'S PRODUCTION OF NATURAL HONEY

Ukrainian honey is exported worldwide, mainly to European countries & USA

INTERESTING FACT:
The world's first movable frame beehive was created in Ukraine in 1814 by Petro Prokopovych

OUR PRODUCTS

Beehive produces the cleanest, eco-friendly honey possible, uniting modern technologies with thousand-years-old traditions of Ukrainian beekeepers. We collect honey in the most picturesque and naturally diverse corners of Ukraine: unmarred by civilization the black-soil flower fields, famous for their unrivaled mineral richness.

Beehive supplies the highest quality products to different countries around the world and has been presented on the Global market in 2017. In 2018 Beehive launched new product range - organic honey.

**OUR MISSION IS TO MAKE
THE WORLD ASSOCIATE
HONEY WITH UKRAINE.**

Beehive does not just buy and sell, it makes changes:

- We bring to Ukraine the best international practices to keep the world industry's pace.
- We adopt these practices at our apiary and plant to find the best solutions taking into account Ukrainian peculiarities.

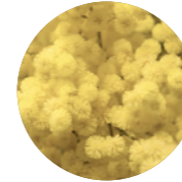

PRODUCT FACILITIES

Beehive has the highest standards of quality and product purity verified by certified international laboratories. Additionally, the manufacturing process is accompanied by constant quality assurance procedures from the best available experts and equipment.

The company works according to FSSC 22000 Food Safety Management System and gained other international quality certifications like Organic and Halal.

ORGANIC HONEY

How do we define honey as “raw”

Raw Honey has only been strained to remove large particles of wax, and therefore retains all the natural goodness of honey including pollen. Packed with all the goodness naturally found in honey, all we’ve done is add a label. Raw & Unfiltered honey may look slightly cloudy and may crystallize over time.

Our raw organic honey is sourced from Certified Organic beekeepers.

This 100% pure Ukrainian honey comes from bees that have foraged various sunflowers and buckwheat blossom.

Our promise to be certified as organic we guarantee our honey is only sourced from hives with a 5km pesticide exclusion radius.

Enjoy our Organic honey as a good choice for all honey occasions.
